SUBJECT: Project Signage

EFFECTIVE DATE: 3/9/11

REVISED: 12/6/12, 9/23/16

BACKGROUND:

The Bureau requires that a permanent sign be erected and maintained on all grant-funded project sites. This requirement is reflected in the grant agreement terms and conditions - Article XVIII Acknowledgement of Assistance. The purpose of the permanent sign is to provide acknowledgement of Department of Conservation and Natural Resources (DCNR) grant assistance, to notify the public that the facility is a public facility and to promote DCNR’s recreation and conservation work to the general public. Below are the minimum standards for the permanent signs.

The Bureau of Recreation and Conservation also suggests that an “under construction” sign be displayed at the site during the construction period. The “under construction” sign is intended to demonstrate, during the time of construction, that DCNR grant assistance is helping to make the project possible.

POLICY:

1. Permanent Signs:
   a. A permanent sign shall be erected and maintained at all project sites. The term “site” means the properties and facilities, including any portion of them acquired, rehabilitated, or developed with a grant from DCNR.
   b. The permanent sign will conform with the minimum standard design and specifications established by the Bureau (provided below), unless local ordinance or local sign design standards require differently.
   c. At a minimum, the permanent sign will state the site name, state that funding is provided in partnership with the Bureau of Recreation and Conservation, identify the funding source and the funding source logo. The sign should be installed in a highly visible location. The sign design needs to be approved by DCNR and it is acceptable to acknowledge other partners on the sign.
   d. Costs associated with the development and installation of signs are eligible for reimbursement at the designated rate based on the program and funding source used. Costs for sign maintenance are not eligible for grant program funding.
e. When multiple projects are funded at a site with DCNR funding, or the project is of a linear basis, the Bureau may waive the requirements for additional permanent signs on a case-by-case basis.

f. When multiple sites are being acquired or developed utilizing a grant from DCNR, permanent signs are required for each site.
Standard Permanent Sign Requirements: Use the sign language that coincides with your project’s FUNDING Source.
